Xceedance Launches TPA

September 28, 2021

Xceedance, a Bermuda-domiciled insurance consulting business, has launched a third-party administration service.

Xceedance said in a press release that the Xceedance Claims TPA is a key offering from its recently expanded claims division.

The company said it hired James Maddiona to lead the new operation. He was formerly senior vice president of excess casualty claims for American International Group. Before then, he worked for Greater New York Mutual Insurance and Fireman's Fund Insurance Co.

Xceedance has offices in the United States, United Kingdom, Liechtenstein, Switzerland, Poland, India, and Australia. The company advises insurers in product launches, implementing technology and optimizing business processes.
