

## ACTUARIAL SERVICES

## CAPABILITY PROFILE

By utilizing a value driven, cost-efficient global solutioning approach, Xceedance Actuarial and Analytics Services are designed to align with your goals. As your strategic advisor and trusted partner, we can handle the supervision of diverse actuarial and analytics tasks, so you can focus more on creating value. Xceedance offers flexible, dynamic, and sustainable actuarial and analytics solutions that empower you to address both your short-and long-term needs. Whether it comes in the form of advisory and consulting support or staff and technology enablement, Xceedance has the right capabilities to help you achieve your goals.

## AGILE CAPABILITIES

Operating in an ever-evolving world of risk, we understand an agile business plan is necessary to account for exposure changes to your existing portfolio, as well as shifts in the underwriting cycle. Having enhanced insights into your distribution, pricing, underwriting, claims, and combined ratio can be the edge you need to succeed. At Xceedance, we recognize there are many ways to execute on your vision, and our actuarial and analytics capabilities are aligned to be dynamic — allowing us to support you in any direction you take.

	 Business Planning	 Product Development	 Underwriting & Distribution	 Portfolio Management	 Claims Management	 Finance
Pricing & Growth Analytics	✓	✓	✓	✓

Data Sciences		✓	✓	✓	✓	
Admitted Market Management		✓				

## OUR VALUE PROPOSITION

From brainstorming to executing on defined strategies and routine tasks, we help connect the dots between distribution, pricing, underwriting, portfolio management, claims, and finance. Combined with global solutioning, the scope of Xceedance actuarial and analytics capabilities provides a holistic service offering at an affordable price — so you can focus more on managing your business.
